Greetings!

It's been said you can measure a person's greatness by how much it takes to discourage them. To be honest, I've had my own share of doubts to face these few past few months. We are in the midst of some *amazing changes*. I recently returned from the desert (no burning bushes). In Palm Springs, CA I participated in advanced training with **Reconnective Healing**. As some of you may know, I've been around the block these past 20 years when it comes to understanding bodymind psychology, natural healthcare and applying energy medicine. So I'm here to say, ***the simplicity of the Reconnective Healing frequencies have really captured my attention!*** Interested in learning more? You can read my article below about **Exploring the Next Level of Healing**. Do you have a sense that **more Wellness is calling you too?** With love & lightness,
~Marcia

Exploring the Next Level of Healing

A new science is emerging that is changing our traditional understanding of health and healing. The latest scientific research is focusing on

experiments, which are quantifying the effects of energy, light and information on human beings. Leading the way are two world-renowned scientists, William Tiller, Ph.D. and Gary Schwartz, Ph.D., and their studies of the **Reconnective Healing® frequencies**, first discovered by Eric Pearl, D.C. The results of this research are attracting the attention of the best and brightest in the scientific community. Bottom line: Reconnective Healing is considered to be able to reconnect us not just through a new set of healing frequencies, but through possibly an entirely new bandwidth.

Reconnective Healing is a form of healing that is here on the planet for the very first time. The first time I read that previous statement, I said "Whaaaat?...Whatever!!" Then I had my own Reconnective Healing session. For brevity and sanity sake, let's just say I met my "Council" and my own healing story continues to unfold. The Reconnective Healing frequencies touch everyone uniquely. Examples include; chronic pain relief, psychological stability, remission of cancers & other diseases in just 1-3 sessions. That's it. Yes, healing just got simpler. As a practitioner, this is what I'm excited about! You don't have to come back time and time again to receive relief. For more information check out the FAQ's (frequently asked questions) at: www.thereconnection.com

Dr. Eric Pearl has written about this work and his interesting story in the book ***The Reconnection: Heal Others, Heal Yourself***. Dr. Pearl is also featured in the newly

released quantum physics movie "*The Living Matrix*" where he discusses Reconnective Healing.

ASK MARCIA: Q & A

What is the #1 challenge facing your psychotherapy clients right now? What solution do you offer them?

I would sum it up with one word, UNCERTAINTY. What is uncertain? Pretty much everything outside of our own true essence. My clients consist of midlife women, professional men, mothers & daughters, couples (straight or gay). Most people these days, not just my clients are facing UNCERTAINTY in one or more of these areas; their health, business, bank account, or intimate relationships. While our other sisters and brothers face basic survival and uncertainty about finding their next meal, roof and water. Fear is very powerful. I'm grateful to be living in abundance. I'm blessed to be able to offer wellness solutions. I remind clients **how to access CERTAINTY while the uncertainty continues to unfold**. An untrained mind can be a dangerous thing. My amazing clients quickly learn about their fear-based 'inner critic' that drives their bus without a license. Someone recently described it as "that mean little 7th grader inside". You know, the nasty one!? **What softens fear? What can soften the judgmental mind?** *The experience of love*. With love and self-acceptance as the essence of my work, I offer Brain, Body and Energy tools that resolve unproductive patterns by softening and healing the hard, sharp or hidden edges.
